# Complementary Mixing Assignment/Photoshop Line Drawing

Scan your image/drawing at 300 dpi
Select>Color Range>Highlights>use slider to adjust
Edit>Clear
Copy this layer 2 times
Edit>Transform each layer however you like
Layer>Flatten Image

You are ready to go

Create gradients from Orange to Blue and from Yellow to Violet
Select colors in between the extremes, these are your complementary mixes
Filter>Pixelate>Mosaic
These will be your base swatches
Add them to your swatches palette (Window>Swatches) using the add swatch button
Also create gradients from complementary mixes>white and >black

Select areas in your line art design with the Magic Wand tool, keep the tolerance low: like 10-20.

Print at least 11x17 on 13x19 legit paper (Staples Photosupreme Doublesided Matte)
Mount on foamcore
